1

100% Personalized

A lot of us have previously enrolled in conventional preparation companies that catered to over 500 students. These companies proved to be unresponsive, offering minimal support for constructing a strong application file. However, at Hack MIM, we provide comprehensive assistance, tailoring each aspect of your application with unlimited revisions until it meets your satisfaction.

2

Limited Applications

To ensure optimal admission outcomes and individualized attention for each student, our cohort has a restricted number of seats, allowing us to provide a best-in-class experience.

3

Exclusive research

Our team has gathered a wealth of expertise over thousands of hours, and we've incorporated this knowledge into our exclusive content designed to benefit you. Our content includes the GMAT Algorithm, tailored Interview Questions from Specific Schools, Recommendation Letter Forms, and a host of other valuable resources.

4

The "Mentor" Approach

At Hack MIM, we believe that dependable support is the cornerstone of any successful application. We understand the challenges that applicants face, which is why our vision centers on offering round-the-clock accessibility for addressing your queries and sharing your concerns.

5

Unlimited Mocks

Our extensive network enables us to provide you with unlimited mock interviews with highly skilled tutors, including top-tier alumni from the school you are applying to. You can take advantage of these resources until you feel fully prepared and confident for your actual interview.

6

Founders as Consultants

Before submitting your application, the founding team thoroughly reviews each component to emulate a Selection Committee, guaranteeing that every aspect is flawless.

I came across HACK MIM on LinkedIn for my MBA applications and I must say, it was a wonderful experience that I highly recommend to others. Initially, I was completely clueless about how to approach my essays and what the MBA program required. However, the founders of HACK MIM enriched my knowledge about the program and provided me with valuable insights to strengthen my application. My mentors, Aarya and Sahil, were especially helpful and played a crucial role in helping me get selected for the MBA program in top schools in the USA.

During the first strategy call, we discussed all aspects of my life, both big and small. This document then became the foundation for all my essays, CV, and interview answers. HACK MIM helped me highlight all my relevant experiences and align them with my application.

There were several rounds of editing, with each edit providing detailed guidelines on how to further improve my application. The mock interviews were particularly helpful in boosting my confidence prior to the actual ones. Thanks to HACK MIM's ideas and contributions, my application was greatly enhanced.

Aarya and Sahil put in a lot of hard work and dedication to ensure every detail of my application was perfect. The cost of the service was reasonable, and the service was delivered impeccably. They also answered all my queries promptly and efficiently.

Around 3 months ago, I began my Master's Abroad journey with Hack MIM, and I had a great experience. The consultants are excellent, and they helped me throughout admissions process. My consultants, Aarya and Sahil, assisted and mentored me to apply to some of the top b-schools. The journey was accelerated by Aarya's social presence and courteous aid in resolving my conundrum. I wanted to express my sincere gratitude to the Hack MIM team for their motivation and assistance.

It is definitely worth it!

I've joined in a premium consultancy back in November, and nothing was done till January except for shortlisting of the colleges. Now when I look back at the shortlisted colleges my profile would've never made it to them. Because they were in US, and I had 3 years undergraduate degree in Social Sciences Background with no significant work experience. I left the consultancy and it burnt a hole in my pocket as there was no refund policy. :)

Found HACK MIM with the luck of algorithm, trusted my instinct and went ahead with them.

- The masterminding acts as a psychometric analysis, you know your strengths, the weakness, what you're good at and where do you stand among your competitors.
- The shortlisting of universities was done in span of 48 hours, and they were top B-schools which suited my profile.
- Multiple essay edits were offered and the consultants have been kind enough to work on my schedule as I'm a Undergrad student.
- We worked on tight deadlines and still managed to create the perfect resume and LOR's.
- Interview preparation was something which stood out for me the most, among their other services
- In the span of a month, I've already got an admit decision from a Top B-School which was in my dream category.

They also help with the VISA, Accommodation, Loan process as well! And the Consultants are the founders who themselves are from **INSEAD** and **ESMT BERLIN**. It is definitely worth every penny, your time and the right place to manifest your dream of getting into top B-Schools.

My interaction with the Aarya and Sahil was wonderful. Personally, I find the master's application process to be challenging and demanding. The EXPERT FOUNDERS excels at making the procedure simple and making sure that a candidate can present themselves in the best possible light.

If you're on the fence about using them, I urge you to try them out and decide for yourself whether they live up to your expectations of a counselling service, which I am sure they will!!!
